🧠 What TCS actually does

👉 IT services + consulting company

They work in:

- Software development
- Cloud computing
- AI / Data analytics
- Cybersecurity
- Business solutions

🌍 Why TCS is big

- One of India's largest IT companies
- Global presence (many countries)
- Trusted brand (Tata name = huge credibility)

🎯 MOST IMPORTANT QUESTIONS (HR + MR)

❓ 1. Why TCS?

☑️ Answer (use this structure)

“TCS is a globally recognized company known for its strong values, innovation, and employee growth. I’m particularly interested in the learning opportunities and the chance to work on diverse projects, which will help me grow both technically and professionally.”

⚠️ Don’t say:

❌ “Because it’s a big company”
❌ “For job security only”

❓ 2. Why should we hire you?

☑️ Answer:

“I have a strong foundation in my core subjects and I’m a quick learner. I’ve worked on projects like WaitWise, AI Fitness App, which helped me develop problem-solving and practical skills. I’m adaptable and willing to learn, which makes me a good fit for TCS.”

👉 You can mention:

- WaitWise
- AI Fitness

❓ 3. If AI exists, why do we need you?

🔥 VERY IMPORTANT (you had this in your list)

☑️ Answer:

“AI is a tool that assists humans, but it still requires human input for design, decision-making, and problem-solving. I can use AI effectively to improve productivity while applying my own understanding and judgment.”

👉 This answer = 🔥 if delivered confidently

❓ 4. Tell me about yourself

👉 Structure:

1. Background (college + branch)
2. Skills
3. Projects
4. Goal

☑ Example (adapt this):

“I’m Advait Rathish, currently pursuing BTech in Computer Science. I have a strong interest in software development and AI. I’ve worked on projects like WaitWise, a queue management system, and I’m currently working on an AI-based fitness application. I enjoy solving problems and continuously learning new technologies, and I’m looking forward to starting my career with a company like TCS.”

❓ 5. Strengths & Weaknesses

Strengths:

- Problem solving
- Quick learner
- Adaptability

Weakness (safe one):

“Sometimes I focus too much on perfecting a solution, but I’m learning to manage time better.”

❓ 6. Are you willing to relocate?

👉 Say:

“Yes”

❓ 7. Do you have any questions for us?

👉 ALWAYS ask something

Example:

“What kind of projects would I be working on in this role?”

🧠 Hidden HR evaluation

They check:

- Confidence
- Communication
- Attitude
- Trainability

👉 Not just knowledge

⚠️ Common mistakes (avoid these)

❌ Speaking too fast
❌ Giving memorized robotic answers
❌ No eye contact / confidence
❌ Saying “I don’t know” bluntly
